

CANSORB P – Multi-Media Vessels

Modular Activated Carbon Liquid Adsorber Series

The CANSORB P Series Modular Adsorbers are fabricated of carbon steel and provided with a high solids epoxy lining. The vessels can be fabricated from other materials such as stainless steel. The liquid collection system is designed to promote even flow distribution.

Manways are 18" x 14" elliptical located on top of tank for easy access and vessels are supplied with 4" x 6" hand holes on bottom side. Legs and fork channels are provided on the CP5000 and smaller vessels, larger vessels have legs only.

Multi-Media Filtration Vessels
