

CANSORB P – PRESSURE VESSELS

Modular Activated Carbon Liquid Adsorber Series

The **CANSORB P** Series Modular Adsorbers are capable of operations where full backwash is required, including applications for backwashing activated carbon. The wide variety of vessels can handle various of flow rates and are ideal for any size municipality.

These units are fabricated of pressure vessel quality carbon steel and include a high solids epoxy lining. However, a different lining can be substituted for the high solids epoxy.

The liquid collection system is designed to promote even flow distribution and efficient adsorbent utilization. Manways are 18" x 14" elliptical located on top of the tank for easy access.

Modular Activated Carbon Liquid Phase Adsorbers					
Model #	Max Flow GPM	Max Pressure (PSIG)	Max Temp	In/Outlet	Maximum Adsorb Fill
CP-500	78	75	130	2/3	850
CP-1000	115	75	130	3/3	1500
CP-2000	145	75	130	3/3	2200
CP-3000	235	75	130	4/4	3300
CP-5000	400	75	130	6/6	6200
