

ECONO L & LS Adsorber Drums

Modular Activated Carbon Liquid Adsorber Series

The Econo - L activated carbon adsorber 55-gallon drum can withstand the rigors of environmental remediation applications since they are constructed of polyethylene with a closed head. This adsorber features a specially constructed collection system, which is designed to promote even flow distribution and thus efficient utilization of the activated carbon and have a low pressure drop.

The Econo LS may be used where a steel drum is preferred. This carbon adsorption system features a specially constructed collection system, which is designed to promote even flow distribution and thus efficient utilization of the activated carbon.

NOTES:

- "OH" designation on Model number indicates open head (refillable) adsorber. Desired contact time may allow higher or lower flow rates.
- Dry virgin activated or reactivated carbon provided as standard adsorbent.
- Maximum adsorbent fill is based on a bed density of 27 lb/ft³.
- Maximum adsorbent fill can differ based on variable bed density and alternate adsorbents.

EçONO

Modular Activated Carbon Liquid Phase Adsorbers

Model #	Nominal Flow-GPM	Max Press (PSIG)	Max Temp	FNPT In/Out	Standard Adsorb Fill	Ship Weight
Econo L	15	6	130	3/ 4	150	175
Econo LS	15	6	130	1	200	218
