## **TIGG, LLC APPOINTS NEW PROJECT MANAGER**

**FOR IMMEDIATE RELEASE**

**OAKDALE, Pa. — (February 12, 2018) —** David Markowski joined TIGG in January as Project Manager. David will be responsible for the development of the schedule, price, and scope for bidding projects as well as coordination of engineering, procurement, and execution of awarded projects. He will serve as the primary interface between TIGG and the customer through the lifespan of the project.

Markowski joins TIGG from Cameron where he was a Senior Project Engineer in their Measurement Systems Division, responsible for oversight of the fabrication, calibration, installation, and startup of feedwater measurement systems in nuclear power stations. He was also responsible for software Verification and Validation (V&V) activities for the nuclear feedwater product line. Additional responsibilities included conducting customer training, performing aftermarket troubleshooting and support, and megawatt uncertainty recapture (MUR) calculations. David holds both a BS in Engineering and Chemistry, with a minor in Business from the University of Pittsburgh.

Bill Bland, Chief Engineer, states “We are excited to welcome David, his experience and industry knowledge has already made him a great addition to the team.”

### **About TIGG LLC**

Since 1977, TIGG has provided a broad range of activated carbon adsorption equipment, systems, filtration media, and services for the removal of trace contaminants from air, water, process liquids, and gasses. The company is based at its corporate headquarters in Oakdale, Pennsylvania and it operates a 155,000-square foot manufacturing facility in Heber Springs, Arkansas.
